Fugro is the world's leading, independent provider of geo-intelligence and asset integrity solutions for large constructions, infrastructure and natural resources. We collect data on topography, soil composition and environmental conditions, both onshore and offshore. We organise the acquired data and add value through processing, interpretation and visualisation. In addition, we provide geo-related design, asset inspection and integrity advice. Our services play a critical role in the entire lifecycle of our clients' construction and infrastructure projects.

Fugro works around the globe, predominantly in energy and infrastructure markets offshore and onshore employing approximately 11,500 employees in around sixty countries. In 2015 Fugro's revenue amounted to EUR 2.4 billion; Fugro is listed on Euronext Amsterdam.
