Fugro reiterates that it highly values its independent position

Fugro has taken notice of the press release from Boskalis of this evening that it has increased its holding in Fugro N.V. to 20.01%.

The stake building by Boskalis is unsolicited and unexpected. Fugro notes Boskalis stresses in its statement that the increased holding is not a step towards making an offer for Fugro.

Fugro reiterates it highly values its position as the world leading independent geotechnical and survey services and data provider, which is core to Fugro's strategy.

Fugro also refers to its press releases of 7 and 10 November 2014 and will provide further information, if and when applicable.
